

# Help support our music program!

**We need your help!** Please support our music program at Kennedy High School by making a tax-deductible contribution to the Kennedy instrumental music program or by adding to your existing contribution. The music department especially needs your financial support for the on-going need to purchase and maintain instruments. Good instruments are a key factor in the sound quality of concerts as well as the spirit, dedication, and confidence of our students. Because budget constraints are a very real part of schools today, contributions are absolutely essential to our music program. Each year, donations help us to commission new music, bring in guest clinicians to work with our students, purchase much-needed instruments and equipment, and in general to maintain the excellence of our music program.
